

STANDARD FEATURES

CLEAN OUT

All guest and tandem seating feature a space at the back of the seat to allow dirt and debris to fall to the floor for easy clean-up and maintenance.

FIELD REPLACEABLE COVERS

Easily removeable seat and back components simply velcro to the steel frame to enable them to be effortlessly cleaned or replaced.

STEEL SEAT FRAME

The black powder-coated seat frame is made from steel for increased durability. This hollow steel frame is lightweight and designed to make the clean out and field replaceable covers possible.

WALL SAVER

The angle of the seat back and rear legs are designed to keep the chair away from the wall, preventing wear and damage to both the chair and the wall.

MOISTURE BARRIER

The laminated seat cushion prevents liquids from penetrating the interior of the chair. This feature is standard on the seat only.
