Sustainability

Jofco is a Forest Stewardship Council (FSC) certified manufacturing facility. Some products are BIFMA level™ certified by SCS. Jofco products are made in the United States.

General Information

Pricing and Terms

Prices found in this book are list prices in U.S. dollars for standard product and do not include storage, installation or taxes. Prices are effective the date printed on the front cover or on a Jofco-issued sticker and supersede all other printed price lists. Shipments are F.O.B Jasper, Indiana, are prepaid, and allowed to dealers dock in the 48 contiguous states. Export pricing is available through the sales department.

All illustrations, specifications and prices are based on information available at the time of printing and are subject to change without notice. Measurements are rounded to the nearest 1/8". Product changes, including but not limited to design, color, material, construction and discontinuance, are at the discretion of Jofco at any time without prior notice.

Orders can only be received from dealers authorized by Jofco. Acceptance of orders are subject to credit approval, and barring any acts of government or causes beyond our control (strikes, fire, embargo of materials, etc.), shipments are invoiced at the published price at time of order. Standard terms are 1% - 15 days, net 30 days. Finance charges are added on delinquent accounts over 30 days.

Quotes and Acknowledgements

Quotes from Jofco must be accepted within 60 days or they will need to be re-submitted. Accepted orders are confirmed via Acknowledgement. The Acknowledgement lists detailed information pertaining to the order as well as an anticipated shipping date. It is the purchaser's responsibility to immediately verify the information is correct and notify Jofco in writing of any changes. Order changes may result in adjustment of ship date.

Changes and Cancellations

Acknowledged orders are not subject to change or cancellation. In the event Jofco is able to stop an order prior to production, a fee will apply. Restocking fees applicable to non-stocked textile or leathers may also apply. Special finishes or special construction items cannot be cancelled once production has begun.

Storage

If purchaser cannot accept delivery upon order completion, a storage fee will apply and purchaser will be invoiced for the order. Larger orders may require purchaser to arrange for a climate controlled outside storage facility. Extreme temperatures and/or humidity will void Jofco warranty. Purchaser bears all risks associated with third-party storage and is responsible for transporting furniture to final destination.

Delivery

Jofco products are shipped via Jofco trucks or contract carrier when possible. Shipments are consigned to, and are the property of, the dealer once it leaves our dock. Jofco reserves the right to select the most appropriate routing and will honor specific requests when possible.

Delivered orders are subject to a minimum charge of \$150 net for shipping/handling on orders less than 300 lbs. Contract carriers quote directly and separately for inside delivery.

Damages and Claims

Jofco products are packed in cartons and meet or exceed existing furniture and seating codes. If you detect damaged product or shortages, do not refuse the order. Note discrepancies on the bill of lading and immediately file a claim with the carrier. Products are delivered to the shipper in good condition and Jofco's liability ceases at that time. Storage in areas of uncontrolled humidity and temperature may cause damage and void Jofco warranties.

Concealed damages must be reported to the carrier for their inspection within 15 days of delivery. Do not destroy cartons or move the product until the carrier has inspected for damages as it may void your claim.

Returns and Repairs

Prior to any return or repair, factory authorization and a written Return Goods Authorization form (RGA) must be secured. The RGA must be used within 30 days of issuance and returned products must be properly cartoned and protected to avoid additional damage. Damages other than noted on the original RGA as well as missing parts may be adjusted in the credit and will be so noted.

Returns due to buyer's order errors will be considered based on condition, finish and product. Those items deemed returnable will be subject to a minimum 25% return/restock fee and must be returned pre-paid freight. Freight collect items will be refused.

Warranty

Jofco's warranty covers repair or replacement of any part or parts found to be defective, subject to normal wear and tear and proper care. Damages resulting from misuse, abuse, negligent use or modification will not qualify for warranty replacement. File drawers are manufactured for hanging files only; bottom loading will void warranty. The warranty applies to products manufactured by Jofco after March 1, 2006 and supercedes previously expressed warranties.

Jofco tables are warranted to the original purchaser to be free from defects in workmanship under normal, single shift use for a period of ten (10) years from date of initial shipment. All warranty claims must be made in writing.

Natural variations in grain, color or texture are inherent in wood and leather. Variations will be more noticeable when lighter finishes are specified. Differences may be detected between finishes applied to solid wood versus wood veneer. Cherry and maple veneer are photosensitive which may result in a deepening of color. None of these natural characteristics should be considered defects under this warranty.

Care and Maintenance

Catalyzed Lacquer Finishes

Dust furniture with the grain using a damp cloth. Clean surfaces with a vegetable oil based cleaner such as Murphy's Oil Soap. Never allow water or cleaner to remain on surface. When necessary, polish lightly with paste wax to restore original lustre and protect the wood surface. Always wipe with the direction of the grain.

Plastic Laminate Tops

Clean with damp cloth and regular household cleaner. Wipe dry immediately to prevent streaking.

Glass Surfaces

Clean with clean cloth, water and natural soap. Never use abrasive products like metallic sponges.

General Care Instructions

When selecting placement of furniture, avoid areas of direct sunlight which will cause the finish to fade or discolor over a period of time.

Scratches, dents, etc., may be repaired using color matching blending sticks or touch-up pens. To retain the furniture's value and original lustre, Jofco recommends a professional touch-up service.

Never use abrasive cleaners and blot rather than wipe spills.

Plastic materials may chemically plasticize with the top surface. Avoid setting plastic binders and items with plastic pads or rubber on your top surface.

Ordering Information

Jofco makes every effort to publish accurate and complete price lists. Please review the following section to ensure you can find all the information needed to fully specify our products.

A Description/Notes gives a description of the model numbers in that grouping.

B Model is an identification of the product. Look carefully at the model number. New model numbers have been implemented for the conferencing price list.

C Dimensions given in this price list are nominal and rounded to the nearest 1/8.

D Pricing is net pricing. Under Specify Options you may find some additional upcharges.

E Illustrations are based on information available at the time of printing and are subject to change without notice.

F Standard Features tells you what features are standard on the product.

G Specify Options gives you a step-by-step guide for building a complete specification. Options with an * are mandatory to make the order complete.

Modification Pricing is available on select product. See Specification Pages for modification pricing.

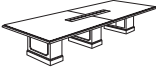

Ordering Information

Authorized Jofco dealers may order by email, fax or mail. Jofco Order Worksheet is in the back of price list.

Certified Wood

Jofco is a Forest Stewardship Council (FSC) certified manufacturing facility. All wood products are available with optional FSC-certified core and veneer to meet the LEED requirement for certified wood. FSC-certified materials are available upon request only. Contact a Jofco Sales Coordinator for more information.

Finish and Color Matching

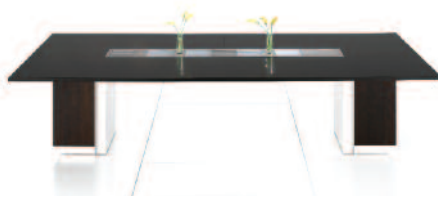

Veneers and solids are matched as closely as possible for acceptable blend and color match. Natural wood in all forms is uniquely varied, and these characteristics are acceptable within our strict limits and reflect the natural beauty of wood.

Special Finishes or Colors

Requests for finish color matching **must** include a sample of the requested color. Jofco will match the sample and send it to the dealer along with an acceptance form. Additional pricing will also be included. The order will not be entered and lead time will not begin until a signed copy of the acceptance form is received. It typically takes two weeks from color match to order entry. After receipt of acceptance, the order cannot be cancelled or returned.

Jofco does not bleach or distress finishes.

Overview

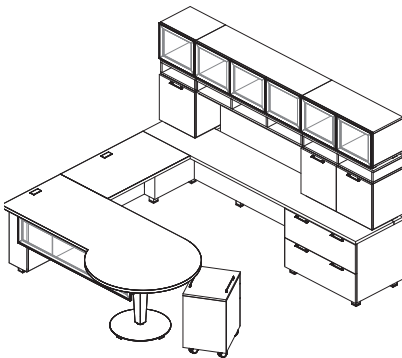

Collective®

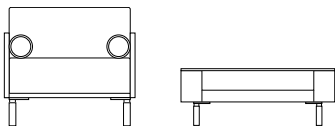

Collective@Space is an upscale approach to the open landscape creating working spaces that are inviting and flexible for users. Elevated by aluminum feet, the central element is the spine wall from which extend an array of integrated components.

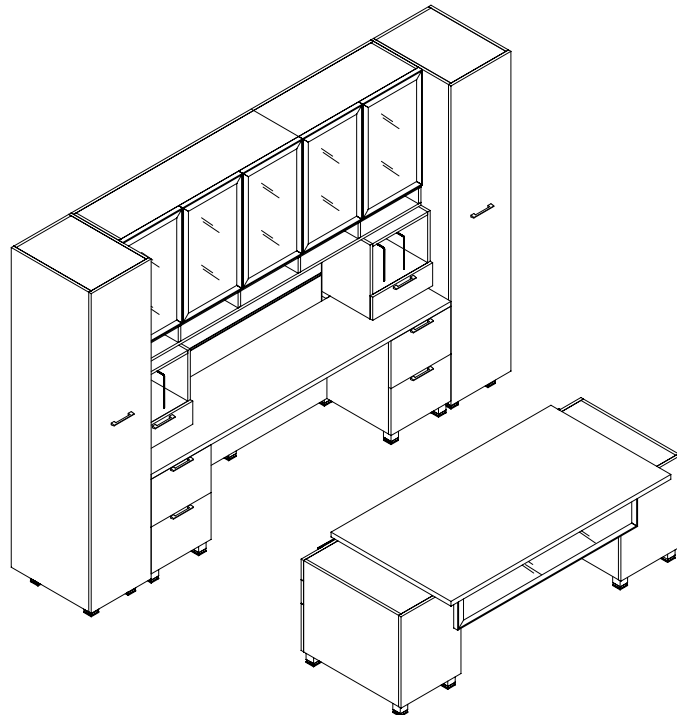

Collective@Space and Lounge

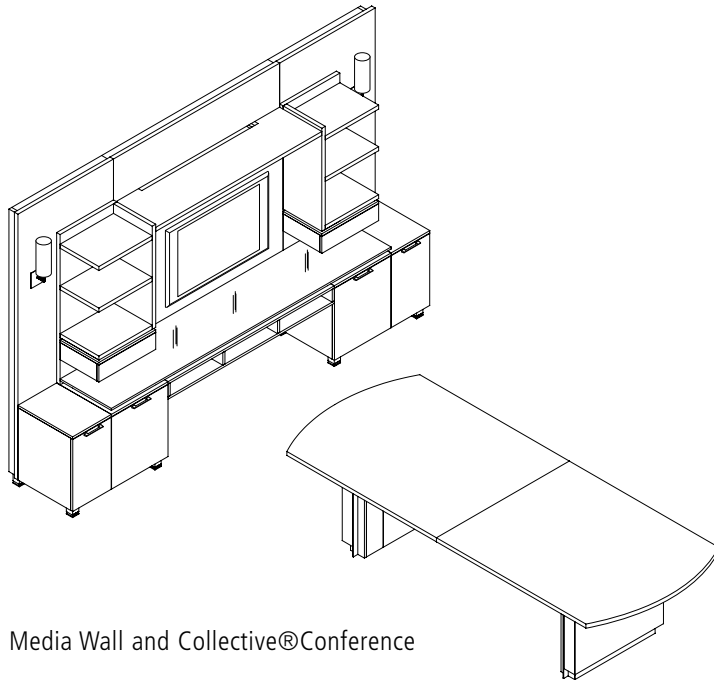

Collective@Office addresses the needs of the private office with a variety of footprints, desk shapes and a multitude of functional options. A user-oriented approach to the design inspired the use of off-modular work tools, tool drawers and seamless technology integration

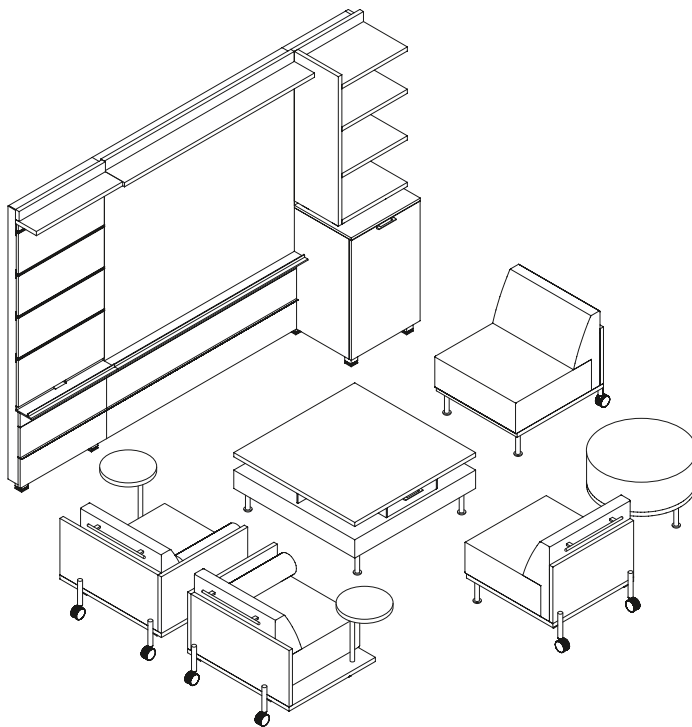

Collective@Lounge includes a group of Lounge Seating and Occasional Tables which complement the open plan and private office casegoods aesthetic and finishes. Both seating and tables are elevated on a satin chrome leg structure.

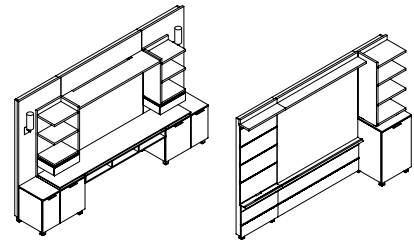

Collective@Office

Media Wall and Collective@Conference

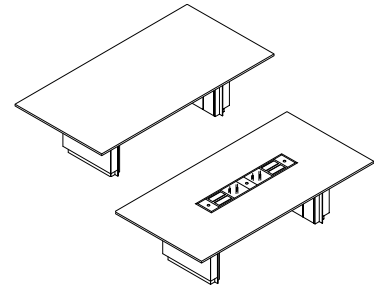

Interactive Wall and Collective@Motion

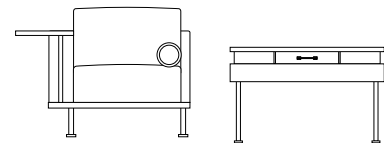

Media Wall

Interactive Wall

Collective@Presentation addresses today's information and presentation environments by providing technology integration and collaborative solutions for reception, private office, open plan, conference or casual meeting spaces. Comprised of center and ender components the modular system is easy to configure and specify.

Collective@Conference lends itself to modern meeting environments by providing a continuous center console with modular functional and aesthetic options. Tables can be specified to address technology and meeting needs and create an image statement.

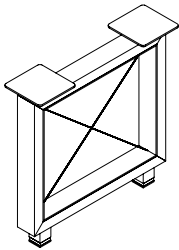

Collective@Motion includes mobile lounge seating and occasional tables with power and data option. Available in single or dual textile combinations, the easily rearranged series creates an infinite array of configurations for reception, meeting, study, library and cafe areas.

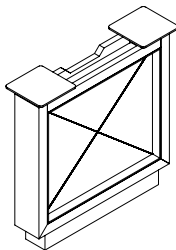

Collective® Conference Bases

Base Types

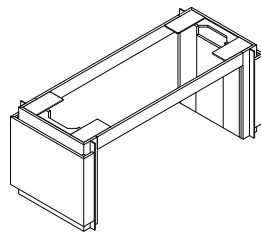

Collective® Conference offers four base styles: open cable, closed cable, panel and rectangular.

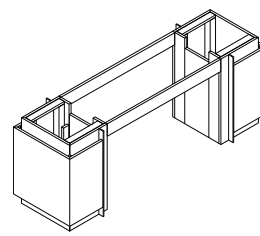

Open Cable Base

Closed Cable Base

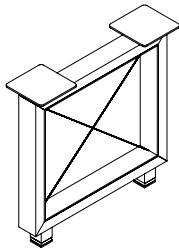

Panel Base

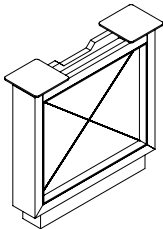

Rectangular Base

Open Cable Bases

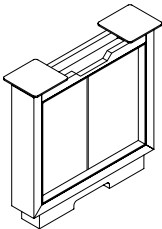

The open cable base features a $\frac{13}{16}$ " X-shaped stainless steel cable accent. Open cable bases provide no wire management compartment. The outer frame is wood with a metal inner frame in silver powder coat. Telescopic feet provide $1\frac{1}{2}$ " leveling adjustment.

Closed Cable Bases

outside base
side 1

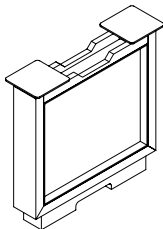

side 2

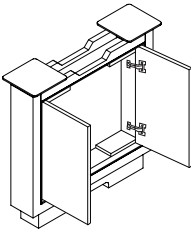

Closed cable bases include a hinged door compartment and plinth base for wire management.

The outside closed cable base features a visible $\frac{13}{16}$ " X-shaped stainless steel cable accent on the side opposite the hinge door. Wires pass through an opening above hinged doors. The base is wood with a metal silver powder coated inner frame.

The middle closed cable base features a wood panel on the side opposite the side hinged door. Wires pass through opening at the top of both sides.

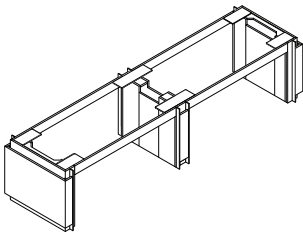

middle base
side 1

side 2

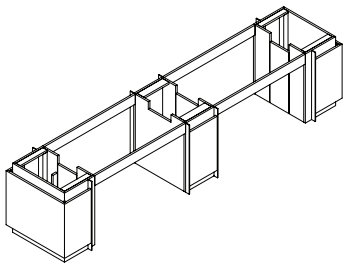

Collective® Conference Bases

Panel Bases

The panel base features slim wood pedestals surrounded by a wood accent. Each pedestal has a hinged door for wire management access and features a silver powder coat fin detail.

Rectangular Bases

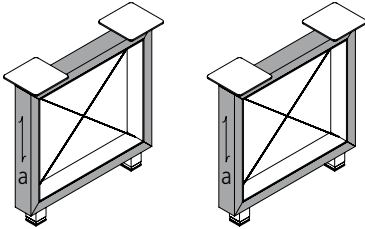

The rectangular base features wide wood pedestals surrounded by a wood accent. Each pedestal has a hinged door for wire management access, an ample storage compartment, and features a silver powder coat fin detail.

Cable Base Materials

Open Cable Base

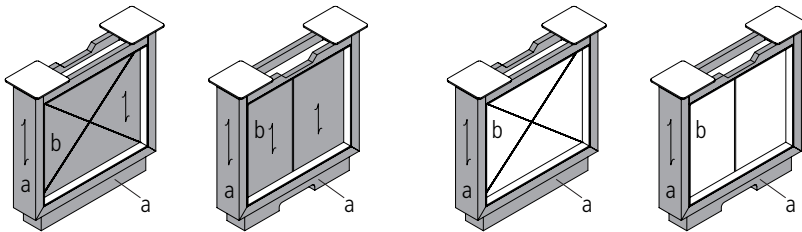

The open cable base is available in veneer only.

Open Cable Base
a. outer frame - veneer only

Closed Cable Base

There are two material options for the closed cable base. The outer frame and plinth are always veneer. The inner panel/door can be specified in the matching veneer or in a contrasting paint.

a. outer frame/plinth - veneer
b. inner panel/door - veneer

a. outer frame/plinth - veneer
b. inner panel/door - paint

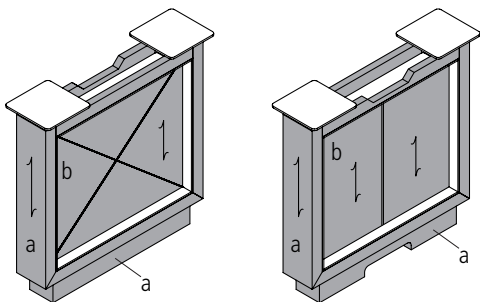

Base Material Options

This form must accompany order when specifying open or closed cable bases for Collective®Conference.

Cable Base Material Ordering

Outer frame and plinth (a) are available in veneer only. Inner panel/door (b) can be veneer or paint and are always same material as the outer frame. Veneer choices are maple, walnut, and makore. Anegre wood species requires an upcharge; See M2 column on pricing pages. Paint colors are spring, storm, summer, wheat, autumn, warm white, winter or cool white.

Areas shown in white are finished in silver powder coat.

Collective® Conference Center Console

Center Console Overview

The continuous center console supports a variety of functional and aesthetic options. A Collective® Conference table with center console includes: the center spine assembly which houses 4", 8", 12" and 16" modules, ordered separately; the understructure of the console; and wire management tray as illustrated below.

1 Center Spine Bezel Assembly

The center spine bezel assembly accepts the 4", 8", 12" and 16" modules shown on pages 10, 62-64 of the pricing section of this price list.

3 Center Spine Structural Extrusion Assembly

When a table with center console is specified, the center spine structural extrusion assembly is attached to the underside of the table top.

2 Table Top

Tops are available in several shapes including rectangular, racetrack, ellipse, arc end, boat and view. They come with or without center console.

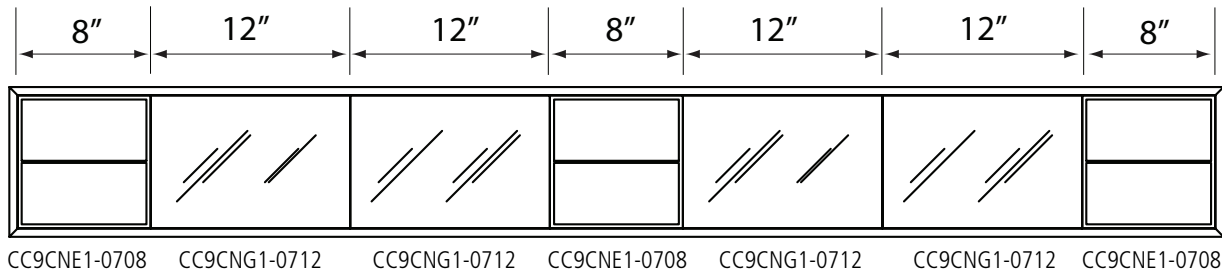

4 Wire Management Tray

When using power/data and lamp modules, the wire management tray channels the cords to the panel or rectangular bases.

Collective® Conference Center Console Components

Collective® Conference is available with a center console for storage, power/data and accessories. The center console is offered in lengths of: 48", 72", 96", 120", 144" & 160". The accessories are offered in 4" increments. When designing your center console the accessories selected must equal the length of your console. **The center console is factory installed. You must specify the order in which you want the accessories to appear using the chart on the bottom of the page.**

Example of 72" Console:

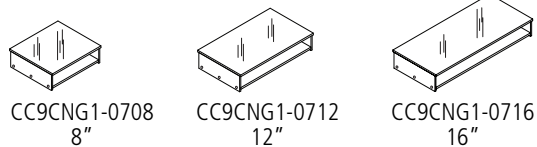

Center Console Accessories

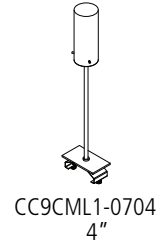

Storage

Glass Panels

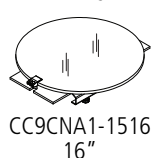

Lamp

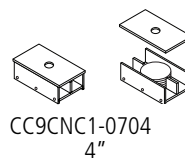

Vase

Accessory Shelf

Coaster

Power Data Module

Table vs. Console Length Chart

Use the following chart to determine the console length.

Table Length	Console Length
216"	160"
192"	144"
168"	120"
144"	96"
120"	72"
96"	48"

How to Order

You must specify the order in which you want the accessories to appear.

Console Length _____

Item	Length	Item	Length
1. _____	_____	11. _____	_____
2. _____	_____	12. _____	_____
3. _____	_____	13. _____	_____
4. _____	_____	14. _____	_____
5. _____	_____	15. _____	_____
6. _____	_____	16. _____	_____
7. _____	_____	17. _____	_____
8. _____	_____	18. _____	_____
9. _____	_____	19. _____	_____
10. _____	_____	20. _____	_____

*Total length of accessory items must equal total length of console. _____

Collective® Conference Specifications

Materials

Exterior surfaces of cases are walnut, maple, makore, and anegre. Anegre requires upcharge; see M2 pricing column. Solid maple lumber is used with maple veneers. Solid walnut lumber is used with walnut veneers. Solid cherry lumber is used with makore and anegre veneers. Painted Surfaces are filled 1/16" thick sanded substrate.

Maple, walnut, and makore face veneers are flat cut to ensure consistency of grain pattern. Top veneers are reverse slip-matched. Aluminum parts are either extruded aluminum with anodized finish machined to specification or fabricated steel painted with a powder coat finish.

Finishes Available

Sandstone L2
Light Stone L3
Greystone L4
Call Jofco to verify matching finish laminate.

Work Surfaces and Components

Collective®Conference has a wide variety of shapes, sizes and supports.

Tops

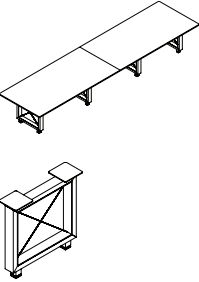

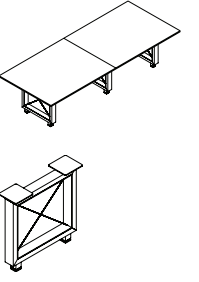

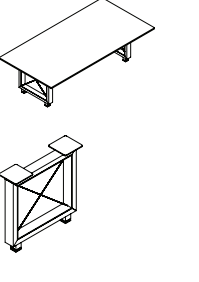

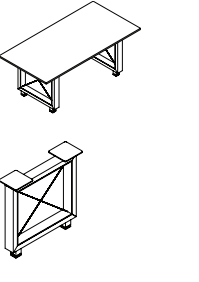

Tops are 3mm self-rimmed. Wood tops are 1 1/4" thick with a 29" standard height. Glass tops are 5/8" thick with eased edges. They are screen-printed for a frosted appearance and feature a fingerprint resistant coating on the underside.

Aluminum Edge Trim

The anodized aluminum trim is 1/16" thick and is available as an option on rectangular tables only.

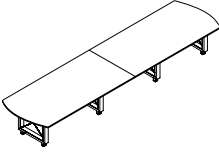

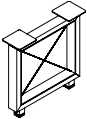

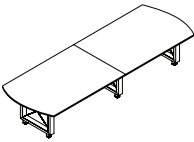

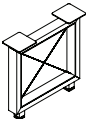

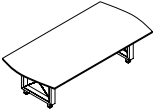

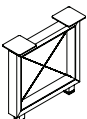

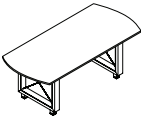

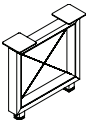

Center Console

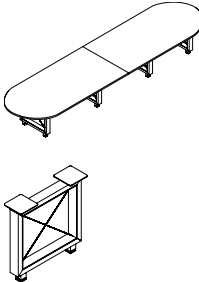

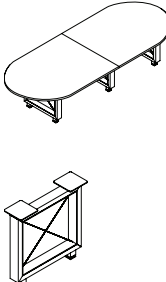

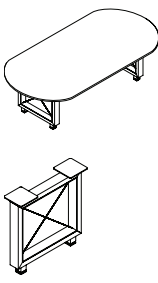

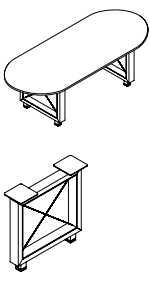

Center console is a clear anodized aluminum with a extruded mitre frame.
