

Restore

j

**Soft** edges and graceful curves define Restore. Options abound in this expansive healthcare offering, including standard and comfort widths and multiple arm styles.

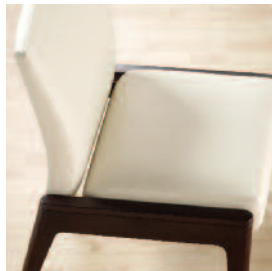

**Guest** and tandem bring highly designed solutions to the waiting room. The hollow steel seat frame is lightweight while offering increased durability. It makes possible easily removeable components which, along with the clean out space in the back of the seat, optimize cleaning efforts. Longevity is reinforced through the wall-saver design and laminated seat cushions.

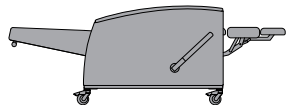

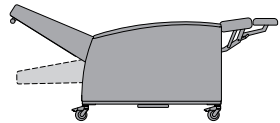

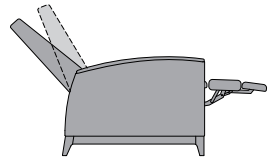

**Strategically** composed for smooth entrance and exit, the lounge features more leg room and gently arced arms. Coordinating tables accentuate the organic design.

**Beauty** extends to the patient room with a family of three-position, trendelenberg, and sleeper recliners. Customizable to specific needs, recliner options include comfort width, head rest, and IV pole.

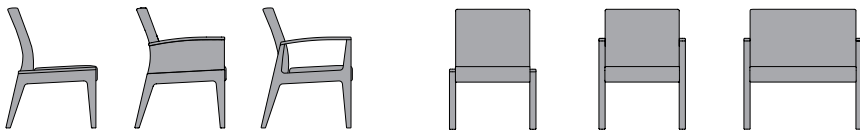

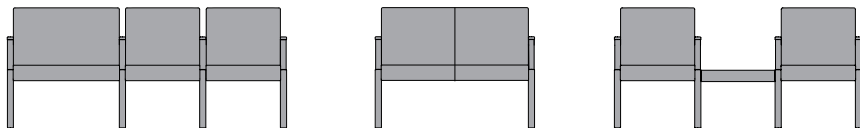

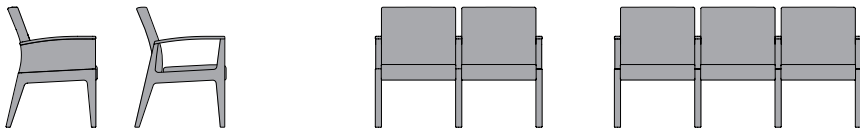

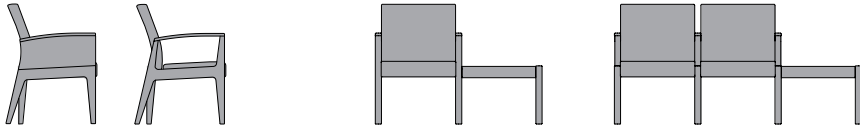

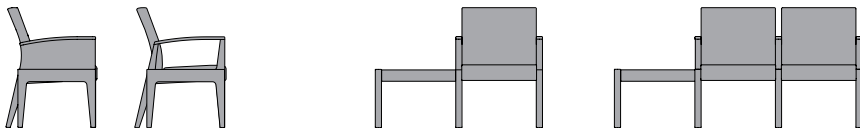

**Stylishly** functional, the sleeper sofa serves as a lounge seat, bed and storage unit all in one. The back cushion folds down effortlessly to ensure separate seating and sleeping surfaces.
